CLEAN UP DAYS

Authorized By the Mayor's Proclamation Start Today—Everyone is Urged to Clean Up His Premises.

The Mayor's proclamation, setting apart Wednesday, Thursday and Friday as general clean up days, will be in force today.

Every citizen interested in the general welfare of his city or community should heed this proclamation and should at once comply with the order of the mayor. The proclamation is issued as an aid to the State Board of Health, which has issued a bulletin calling attention to the fact the epidemic of infantile paralysis is spreading over the entire land, and although it is generally confined to infants and children, older people are by no means immune to this disease. The cause of the disease, according to the best medical authorities is filth and the lack of sanitation.

It behooves every one then to see that no filth or rubbish is allowed to collect on his grounds or near his property. Every resident in the city must thoroughly clean his premises from every manner of trash, filth and rubbish. The city will aid in cleaning up and will haul away trash of any one too poor to pay for same. It will also furnish lime to those who cannot afford to buy it. The citizens who fail to comply with this order will be prosecuted in the courts.

The order is a just one and all should see that their premises are spick and span for Sunday. The city is giving plenty of time to comply with the proclamation. Already quite a few have cleaned up and there are others that do not allow their property to become cluttered up with rubbish but haul it away as soon as it accumulates. As yet Mayville has not been visited by the epidemic and these precautions should prevent its visiting this city. Make your slogan, "Clean Up."

KINDLING

Any one desiring a load of good dry kindling can have same by calling at the Ledger Office. It is FREE.

COLTS NOT LIKELY TO COME TO MAYSVILLE TODAY

This morning's Lexington Herald says: Howard Guyn, former manager of the Colts, has received a telegram from President Joe Carr, informing him that he is expected to have his club, or all that remains of it, in Mayville today, but no answer have been sent to get the club to that town and the Colts are not going to leave without definite information on the important question of whether they can get back home again. The players are mighty anxious to have the question of whether there is going to be an Ohio State League settled for good, as several of them are in positions to get herths in other circuits and are anxious to go to a town where there is a chance of getting a pay check now and then.

COFFERDAM FLOODED

The river did some jumping last night, rising about ten feet. The gauge at the local wharf showed nineteen feet this morning. The cofferdam at the government works was flooded at about three o'clock this morning. The contractors were ready for it having been warned by the U. S. Weather Bureau to expect a big river at once. The river will probably reach a twenty-four foot stage here. This rise will mean the loss of employment for the time being of several hundred men.

WILL OPEN ABOUT AUGUST FIRST

Manchester's saloon will be opened on August 1st, according to the news brought down by the residents of that town. The saloon will be in a precinct in which only twenty-two voters reside, nineteen of whom are wet. As the state of Ohio is now under the home rule law this is possible. No matter if the Manchester people do object to the saloon they can do nothing until the law is repealed, for three against nineteen can do very little.

U. S. TO WITHDRAW ARMY

Mexico City, July 18—James Linn Rodgers, representative of the American government, informed the Mexican secretary of war today that the American expeditionary force in Mexico City would be gradually withdrawn from Mexican territory. Mexican commanders have been designated to reach a settlement of the outstanding questions in the United States.

El Paso, Texas, July 18—A party of mounted Mexicans exchanged fire with L Company of the Ninth Massachusetts Infantry near here today. According to reports the guardsmen were doing outpost duty when the Mexicans rode up on the opposite bank of the Rio Grande and opened fire. The guardsmen suffered no casualties, but reported they believed they had killed one Mexican.

Captain Hickey, of Dorchester, Mass., commanding the company, estimated the number of Mexicans at 15, but said he was not able to determine whether they were soldiers. Approximately 50 shots were fired on each side, it was said.

Both General George Bell, Jr., commanding the El Paso district, and Lieutenant Colonel Leon Duclon, acting garrison commander in Juarez, denied that he had received official reports of the incident, and both said that it seemed trivial.

Attack in Isolated District

The shooting occurred in an isolated district about three miles down the river from El Paso, known locally as the "Island" section. The Massachusetts company was doing border patrol duty in this district, one third of the 60 men being on patrol and the remainder being held in reserve in the camp about half a mile to the rear.

Captain Hickey said that throughout the day small parties of Mexicans appeared from time to time on the Mexican bank of the river, which is about 30 yards wide at this point. Then, he said, a mounted detachment appeared, most of the horsemen wearing red serapes.

The Mexicans rode up the river bank, dismounted and deployed as skirmishers, creeping through the underbrush which dotted the river's edge.

One of the Mexicans fired his rifle, the bullet crossing the river, and, according to Private Charles Prescott, of Natick, Mass., dropped at his feet.

Screening themselves as much as possible by little clumps of mesquite, the Americans returned the fire and by the time the reserves reached the river to reinforce them they had driven the Mexicans back to their horses.

BRITAIN FACES CRISIS IN FINANCIAL STATUS DECLARES CHANCELLOR

London, July 17—(Special Cable).—There has been an enormous increase in the war expenditures of the British, and unless action is taken by Parliament the borrowing powers of the government will have become exhausted by Thursday.

Reginald McKenna, Chancellor of the Exchequer, said in the House of Commons today that the daily expenditures of the country are now \$30,000,000.

Proceeding estimates of expenditures placed them approximately at \$25,000,000 daily.

CAPTURE BOOTLEGGER

Officer Tolle of the local police force, captured George Bradford late yesterday afternoon. Bradford has been wanted here for some time for bootlegging. He had suffered a very severe mishap, for in coming from Ripley to this city his foot had been caught under a wheel and the large toe on his right foot was severed. He was given medical attention at once after capture.

MANY ATTEND PARTY

About twenty from here attended a party at Mt. Carmel last night given at the home of Mr. D. Carpenter. They were a fine time although the going was somewhat rough.

FULTZ ESCAPES

Martin Fultz, who has been serving a sentence in the county jail for bootlegging, escaped from the guard Monday afternoon. If he is caught again it will go hard with him, his capture being almost a certainty as none of them can stay away from Mayville. Hunter Cooper also escaped from the guard last week and is reported in Ripley. If he is caught the police will get them sooner or later.

NO GAME YESTERDAY

Although it was announced, there was no game yesterday afternoon with the Lexington Colts at League Park, owing to the non-arrival of that team. President Carr of the league wired President Russell that the team would come to play the game and later in the day telephoned that they had already started. We are sorry to have made the mistake of saying that there would be a game but we were acting in good faith as we were going by the telegram received from President Carr.

AUTO ACCIDENT

Traxel's truck was struck by a large touring car yesterday afternoon when it was being turned in front of the Cumulus grocery on East Third street. The crash could be heard for some distance. One tire was punctured, a spoke in one of the rear wheels knocked out and the fender badly mashed in the truck.

TAR WILL BE POURED TODAY

The tar filler for the brick streets on Bridge street will be poured today. The tar was being melted this morning preparatory to being poured and the work will progress fast enough so that we will have one new brick street by the first of next week.

DESBERTER WHITT NOT ARRESTED

Sheriff Sloan has returned from a flying trip to Ft. Thomas, Ky., where he went to see a recently captured deserter by the name of Whitt who is said to have stolen the fine driving horse of Elva Ball. At Ft. Thomas the Sheriff found that Whitt had not been taken into custody as had been reported to him and that the army officers are still hunting for him.

Very much disgruntled the Sheriff returned from his wild goose chase, but is still determined to leave no stone unturned in his efforts to find the man who took the horse.—Ashland Independent.

Whitt is the man who was arrested here some time ago by the local police and let go again on account of his having told them that he had been discharged on account of his physical condition.

AUTO GOES IN RIVER

An auto was driven in the river at the local wharf Monday morning when the driver allowed it to go too close to the edge of the float. The front part of the machine was in the river. It required two hours to get it out of the river.

Not satisfied with appropriating \$43,000,000 for reclaiming lands privately owned along the Mississippi and other rivers under the guise of flood prevention, the pork hungry congressmen are preparing to make another raid on the treasury. The public buildings committee of the house, we are told, have decided to report out favorably a bill to appropriate \$20,000,000 for public buildings. This from a body which skimps and pares and squeezes when it comes to preparing the nation for self-defense!—South Bend Tribune.

FORTY ARE MISSING

In Carolina Floods—In Three States Situation Is Growing Worse and the Damage May Reach \$20,000,000—Railway and Wire Service Crippled.

Raleigh, N. C., July 17—With forty or more persons missing, the flood situation in North and South Carolina and Virginia caused by torrential rains became worse today. Scores of factories were unable to open their doors and early estimates were that fully 20,000 workers had been made idle.

The property damage, at first conservatively estimated at \$10,000,000 increased hourly today as the rising waters carried away building after building that had withstood the first rush and it is feared the total damage will go over \$20,000,000.

The flood has so crippled railway, telegraphic and telephone communication that large districts are completely cut off from the rest of the world. In some of these sections there may have been heavy loss of life.

Railroad advisers say that the flood was also having a serious effect in the western part of Virginia. Train service there has been discontinued because of the washing away of several bridges and long stretches of track along the swollen rivers.

In North Carolina alone more than 7,000 men, women and children have been rendered homeless, according to reports. The loss of life in Asheville would have been large but for the efforts of rescue parties that were organized as soon as the situation became dangerous.

Several members of the rescue forces were swept away in their small boats and have not been found. Among the missing are three women nurses who turned out to assist at the first call for help.

Employees of the Vanderbilt estate at Billmore are assisting in the rescue work in the Asheville district. Some sections of the estate have been flooded, but latest reports indicate that no serious damage has been done there.

The railroads are heavy sufferers

In this grand chorus of local praise Maysville is well represented. Well-known Maysville people Tell of personal experiences. Who can ask for better proof of merit?

Mrs. Dora Mefford, Maysville, says: "I had been feeling poorly for some time before I knew that my kidneys were at fault. I was nervous and dizzy and my back and head ached. I rested poorly and mornings I was all tired out. I read in a local paper how a neighbor had been cured of kidney trouble by Doan's Kidney Pills. from the flood. Railroad stations at various places are filled with water to the second story. Where the tracks parallel the raging streams it will take two weeks to repair the damage that has been done. All traffic is demoralized.

Fourteen are Missing in Collapse of Bridge

Charlotte, N. C., July 17—Catawba River, already far out of its banks, continued to rise today. Fourteen men who were swept into the swirling waters when the Southern Railway bridge here went out have not been found. They are H. P. Griffin, road supervisor; J. C. Gorson, ear inspector; Charlotte; R. C. Thompson, section foreman; Belmont; W. L. Fortune, King's Mountain; A. B. Blackwell, Western Union line crew boss; three teamsters and five negro laborers.

The Seaboard Air Line and Piedmont & Northern Interurban bridges have also been swept away.

At Mondo the West Mondo Cotton Mills are under water and 5,000 spindles are idle. The Lladan and the Alapah Mills, further up the river, are under water.

Norfolk & Western Is Tied Up By Itself

Richmond, Va., July 17—West of Roanoke traffic is at a standstill, due to the excessive rain of the past few weeks. The tracks of the Norfolk & Western are under from five to ten feet of water.

Across the New River heavily laden coal trains are standing on bridges to prevent them from being carried away.

At Ripple Mead, where extensive double-track work was under way for the Norfolk & Western, much of the construction has been swept away.

Along the line of the Virginia Railway west of Roanoke business generally is suspended. Trains over the Norfolk & Western which left New York on Saturday, including the Memphis special, are being held at Roanoke. It is impossible to get the trains away because the tracks are under water and some of the bridges are in dangerous condition.

The property loss along the railway lines will run into millions.

Enormous Losses in Corn and Peanuts Clifton, Tenn., July 17—Fully a million acres of peanuts and corn in the Tennessee River Valley, from Chattanooga, Tenn., to Paducah, Ky., were today under water ranging in depth from four to fifteen feet, as result of the flooded condition of the Tennessee River. The loss is estimated at more than \$1,000,000. Hundreds of head of stock have drowned and many persons are homeless.

RURAL CARRIER EXAMINATION

The United States Civil Service Commission has announced an examination for the County of Mason, Kentucky, to be held at Maysville on August 12, 1916, to fill the position of rural carrier at Sardis and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

MAYOR LEE

Issues Proclamation For "Clean-Up" Days to Be Held Wednesday, Thursday and Friday.

The State Board of Health, having issued a proclamation and warnings to the County Boards and Municipalities throughout the State calling attention to the fact that infantile Paralysis, now epidemic in many of our large cities, is spreading throughout the entire land. The cause of this most dreaded disease, in the opinion of the best medical authorities, is filth and lack of sanitation. And, while the disease is usually confined to infants and small children, adults are by no means immune to it.

Because of the conditions that now confront us we are making this urgent appeal to every citizen of this city who values the health, the life and happiness of the people of this community to co-operate with the County and City Boards of Health, the Health League and the Woman's Club and, especially do we ask the Chamber of Commerce for their assistance and co-operation in this very serious matter. On account of the above conditions we deem it prudent and do hereby issue the following proclamation:

I, J. Wesley Lee, Mayor of the City of Maysville, Kentucky, do, by this order, proclaim and set apart Wednesday, Thursday and Friday, July 19th, 20th and 21st as clean up days for this city and, by this order, command the Street Commissioner to thoroughly clean all the public streets and alleys and all public places from all filth and trash of every kind, flush all sewers and gutters and to place same in a sanitary condition. Every resident within the City limits must thoroughly clean their premises from every manner of trash, rubbish or garbage. Lime all drains and outhouses and place their premises in a perfect sanitary condition. This order also applies to all merchants, shop keepers, grocers, meat markets, manufacturers and every kind of business. Keepers of livery barns or private stables are ordered to remove all manure from or near their stables and use lime freely and to whitewash all stables where horses or other stock is kept. Chicken yards and chicken coops must be thoroughly cleaned. Positively no dogs will be allowed to roam within the City limits. Citizens who fail to obey the orders of this proclamation will be prosecuted in the courts. Landlords, owners of real estate and their agents will be held responsible for the acts of their tenants. Persons who are too poor to pay for the carrying away of their trash and dirt, if they will place same in a convenient place and notify Mr. Ben T. Smith, Street Commissioner, he will have same removed. The City will also furnish lime to those who are unable to pay for it.

This July 17th, 1916.

J. WESLEY LEE, Mayor.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. RESIGNATION OF SECRETARY McADOO EXPECTED IN WASHINGTON, SAYS REPORT.

Washington, July 17—Official circles were interested in a report here tonight that Secretary of the Treasury McAdoo is to resign from the Cabinet to accept an appointment as Governor of the Federal Reserve Board, succeeding Charles H. Hamlin.

Secretary McAdoo could not be reached tonight. Governor Hamlin was out of the city. It was impossible, therefore, to obtain official verification of the report.

The term of Governor Hamlin expires August 1. His successor will be given a term of 10 years.

Members of the Federal Reserve Board receive the same salary as Cabinet officers, \$12,000 a year. The office is one of the most sought and most highly prized in the gift of the Government.

Governor Hamlin has been urged repeatedly to retire from the Reserve Board and make the race as Democratic candidate for Governor of Massachusetts. Secretary McAdoo, who is the President's son-in-law, was at the White House today in conference with the President. Postmaster-General Burleson, who, with Mr. McAdoo, is the President's closest political adviser, also was at the White House.

The White House was silent tonight on the reported Cabinet change.

LINCOLN CABIN BILL IS SIGNED BY WILSON

Washington, July 17—President Wilson today signed a bill accepting on behalf of the Federal Government the log cabin in which Abraham Lincoln was born near Hodgenville, Ky., and a memorial hall enclosing the cabin. The property was given to the government by the Lincoln Farm Association. The President will speak there in September.

BULGARIAN CAPITAL AGAIN IS TARGET OF AERIAL BOMBS

Paris, July 17—French aviators again have bombed Sofia, the capital of Bulgaria, the French War Office reported today. The following report on the operations of the army on the front whose headquarters are at Saloniki were issued:

"From July 1 to July 15 there were artillery actions east of the Vardar which often became rather violent. An outpost engagement of no importance took place July 2 north of Kalinovo."

"West of the Vardar in the mountainous region in the direction of the Jumlitza and Osin, our patrols and light detachments have had frequent skirmishes with the enemy, whom they have always compelled to retreat."

"Our aviation corps developed great activity, bombarding particularly military establishments at Sofia and enemy encampments at Sturmitka and Bogodolma as well as three attacking Fort Rupel. An enemy squadron on July 9 bombarded without result our camps in the Topolna region."

BRIDEGROOM 67 TAKES BRIDE 16

Winchester, Ky., July 17—Miss Tilda Ann Clem, 16 years old, was married to James Hsie, 67 years old, yesterday. The girl-bride is a daughter of Mr. and Mrs. George Clem, who are tenants on the place of George Gilbert. Hsie owns a small farm at Log Lick and after the ceremony left with his bride for home. The ceremony was performed at the home of the bride, the Rev. Mr. Anderson, pastor of the Mt. Olivet Church, officiating. The bride is of small stature, while her husband is six feet tall, making the difference in the two all the more noticeable.

Before marriage some men take their best girls out and scatter money to the winds. But five years later they often years longingly for the price of a stick of gum.

UNCLE SAM TRUSTS ALLIES ON THE NEUTRALITY QUESTION

Baltimore, Md., July 17—There were many indications tonight that the submarine merchantman Deutschland will be ready to sail tomorrow. The tug Thomas F. Timmins, which towed the submersible to Baltimore from the capes, coasted this afternoon.

Washington, July 17—There will be no patrol of American warships off the Virginia coast to see that allied cruisers awaiting the reappearance of the German merchant submarine Deutschland stay outside of the three-mile limit. Secretary Daniels said today that the United States assumed that its territorial waters would not be violated by the allies' men-of-war and had no fear that the underwater merchantman would be attacked before she reached the high seas.

So far as can be learned the Washington government has not been notified of the Deutschland's probable sailing, but it is believed that she will drop down from Baltimore to some cove in the Chesapeake Bay and from there slip to sea on the first favorably dark night.

Both the British and French Embassies have made representations to the State Department urging that the Deutschland is a potential warship not entitled to treatment in neutral ports as a peaceful merchantman. The British statement of views was presented in writing, but with the explanation that it merely was for the information of the United States and was not the nature of a protest. Now that the department has ruled formally that the submarine is entitled to recognition as a merchant vessel, it is understood the diplomatic representatives of the allies are awaiting instructions from their foreign offices.

Dispute Between Britain and the U. S. Imminent Over the Deutschland

London, July 17—The question of the possibility of a dispute between Great Britain and the United States over the status of the German commercial submarine Deutschland, which arrived recently in the United States was raised in the House of Commons today by John Dillon, who asked Lord Robert Cecil, Minister of Commerce to present immediately to Parliament the communications which had passed between the two governments and to undertake to keep the house fully informed of the course of negotiations in this matter.

Lord Robert replied that the correspondence was proceeding and that it was not in the public interest that it should be published now. He would see that the suggestion to keep the House informed of the course of the negotiations was fully considered.

"Will you see," asked Mr. Dillon, "that Parliament is not committed to a dispute with the United States without the House being given an opportunity of discussing the whole subject?"

Lord Robert replied: "I don't think the House would wish me to give such an undertaking as that, but I will present the suggestion to Sir Edward Grey."

Belle of Maysville

The most wonderful whisky that ever drove the skeleton from a feast or painted landscapes in the brain of man. It is the mingled souls of wheat and corn. In it you will find the sunshine and the shadow that chased each other over the billowy fields; the breath of June; the carol of the lark; the dews of night; the wealth of summer; and Autumn's rich content—all golden with imprisoned light.

Drink it, and you will hear the voices of men and maidens singing the "Harvest Home" mingled with the laughter of children. Drink it, and you will feel within your blood the star-lit dawns, the dreamy, tawny dusks of many perfect days. For many years this liquid joy has been confined within the happy staves of oak, longing to touch the lips of man.

Yours for, \$3.00, \$4.00 and \$6.00 per gallon. Sold only by

The Perfect Corn Flakes

New Post Toasties are not only inexpensive but they bear a new deliciousness, produced by a new process of cooking—the first to produce corn flakes with the self-developed true corn flavor.

So fine is this flavor that New Post Toasties are wondrous good eaten dry. Unlike common corn flakes, they do not require cream and sugar to make them palatable. Try some that way—you'll appreciate the point, though they're even better when served with cream or good milk.

These New Post Toasties don't mush down in cream, and they are not "chaffy" in the package, like common flakes. They're new in form, new in flavor, and new in appearance. Note the tiny bubbles on each flake—an identifying feature.

Put up in wax-sealed packages, New Post Toasties retain their oven-crispness and flavor until served at your table.

Have your grocer deliver a package for tomorrow's breakfast.

STRONG CAMPAIGN PLANNED FOR REPUBLICAN SENATORS

New York, July 17—William R. Willcox, Republican national chairman sent out a call today for a meeting of the campaign committee to be held on Thursday to confer with Charles E. Hughes.

The chairman announced that this meeting would be followed by a meeting of a special Senatorial Committee which would devote its attention to campaigns in eleven states where Senatorial contests are expected to be close.

The names of Senators John W. Weeks, of Massachusetts, Reed Smoot, of Utah, Thomas Sterling, of South Dakota, James W. Wadsworth, Jr., of New York and Charles Curtis, of Kansas were announced as members of the committee.

Arrangements for the transcontinental trip which Charles E. Hughes expects to take early in August probably will be completed here, at least so far as the speaking program is concerned, when Mr. Hughes will confer with the Campaign Committee. There will be little deviation from the original plan to confine the number of speeches to about a dozen, but the Campaign Committee will designate the cities where the nominee will speak and the dates.

All letters and telegrams asking Mr. Hughes to speak at various places on this and other trips have been referred to the Campaign Committee, into whose hands the nominee has placed the task of arranging his program. In making up the program the committee is expected to confer frequently with the nominee.

GULF STREAM MOVING TOWARD COAST, IS CAUSING SHARKS TO SWIM CLOSE TO AMERICAN SHORE, STEAMSHIP CAPTAIN SAYS

New York, July 17—A new theory to explain the presence of large schools of sharks along the North Atlantic seaboard was offered by Captain William Jensen, of the United Fruit steamship Calamarcos, which arrived here today. He expressed the belief that the Gulf Stream has swerved toward the coast and that tropical fish of every variety soon will abound in the waters adjacent to Long Island. Two hundred miles from New York Sunday night, Captain Jensen said, the temperature of the water 74 degrees, unusually high for that latitude.

The Captain of the British steamer Merioneth, in today from Gibraltar, reports that on July 6 and on succeeding days he and members of the crew sighted sharks ranging in length from eight to ten feet in large schools.

The American steamer Charles Healy, Tilt Cove, N. F., reports the ocean alive with sharks. Captain Zeley says he never saw so many. From 60 miles east of Fire Island to port, he says he saw schools of sharks, probably several hundred in all, from six to twelve feet long.

Captain Meyer, of the Dutch steamer Houkelsdyk, from Rotterdam, also reports sighting sharks in large schools. The bark Martha, which arrived today from Rio Grande del Sul, reported that she sighted a school of about 100 sharks off Fire Island yesterday.

Damn the war, damn the emperor, damn the kings, damn the damned fools generally.

Last in Fielding.

According to the official averages for
the first half of the Ohio State League
season just issued by President Joe
Carr, Maysville ranked third in team
batting with an average of .267 and
last in team fielding with an average
of .942.

Stanley Tinin, outer gardener for the
Burley Cubs, was the boss hitter of
the team with an average of .345.
Charles Mueller, the hefty backstop
for the locals early in the season,
ranked fourth in the batting depart-
ment with an average of .377.
